ARCHITECTURE & COMMERCIAL PROPERTY RATE CARD

Architectural and Commercial Property Photography is performed on a day rate basis. The highest level of detail and quality will be delivered at this level with significant retouching and post-processing performed on all images as needed.

The commercial property shoot is usually broken down into five stages:

1. Initial consultation and location scout
2. The photography shoot
3. Contact sheet output
4. Client image selection
5. Post-processing and editing of images

Initial consultations and location scouting prior to the shoot is included in the price. The photography shoot will typically take between 60-90 minutes per 1000 square feet. Each 60-90 minutes will typically result in 15-20 different angles, shots, & exposures. 48-72 hours after the photography shoot, a PDF contact sheet is sent to the client. The client may choose which images they would like processed & edited for final delivery.

Photography Shoot

\$800 / full day
